

COLEGIO LA SALLE

Bucaramanga

¡Lasallista! "Lo mejor entre lo mejor"

PLAN DE TRABAJO PARA ARS

ASIGNATURA: Inglés básico 1

DOCENTE: Elisa Duarte Ayala

PERÍODO: III

ESTUDIANTE:

FECHA:

CURSO: 9º__

CRITERIOS DE EVALUACIÓN COGNITIVOS - PRAXIOLÓGICOS.

- ✓ Muestra un buen dominio conceptual.
- ✓ Comprende información implícita y explícita de conversaciones y diálogos evidenciando competencias lingüísticas.
- ✓ Lee y comprende textos identificando ideas principales, información relevante y personajes principales.

CRITERIOS DE EVALUACIÓN AXIOLÓGICOS Y/O ACTITUDINALES.

- ✓ Seguimiento de indicaciones.
- ✓ Desarrolla la prueba con honestidad
- ✓ Mantiene un adecuado comportamiento durante la prueba y llega puntual a la misma.

MEET ME AT ST PANCRAS

Technologies old and new come together under one roof. It's the new age of the train.

JENNIE HISLOP reports.

London now has a railway station that is the equal of New York's Grand Central and the Paris Gare du Nord. St. Pancras International in the United Kingdom home of Eurostar. It's a stunning Victorian Station in the heart of London, with connections that spread out across the country, linking the UK with the rest of Europe.

The new station opened in 2007, and handles 50 million passengers a year. It provides access to the northern European cities of Paris, Brussels and Lille. From there you can travel to Spain, the French Alps, the south of France, and Germany. Eurostar flashes along the railroad line, known as High Speed 1 (HS1), at 300 km per hour (186 mph), just as the TGV has done in France for many years. The whole area around St Pancras and King's Cross has had a major regeneration. It is now a thriving, inner-city district, home to multinational businesses, art galleries, bars and restaurants.

THE ORIGINAL STATION

When St Pancras Station was built in Victorian times, it took 6000 men and 1000 horses five years to complete, and cost £436,000. It opened in 1868, a masterpiece in iron and glass, designed by the great engineer W.H. Barlow. He created a cathedral on two floors. Below, there was an enormous basement, used as storage area for beer coming south from breweries in the Midlands. Above this floor, he built a vast crystal palace, the tallest and widest of its day, and one of the great feats of Victorian engineering. The glass roof, all 240 feet (75 meters) wide, appeared to float unsupported. It crossed the five platforms in a single, undivided span.

THE NEW STATION

The 21st century St Pancras International was restored over a three-year period at a cost of £800 million. The basement area is now the check-in and departure lounge. Escalators lead to the platforms on the floor above. The glass roof has been carefully restored, and the iron arches painted the original sky blue. An 18-car Eurostar train is about a quarter of a mile long, so the roof was extended. There are now fifteen platforms.

The restoration of this building is a triumph of great tradition, high technology, and style. There is a 300ft (92 m) champagne bar. A farmers' market is supplied with fresh produce brought in from Europe daily. There are boutiques, patisseries, delicatessens, chocolatiers, and a whole range of places to eat, from brasseries to organic home-made burger bars.

THE STATION HOTEL

The large Gothic building in front of St Pancras is not, in fact, the station but the Midland Grand Hotel. When it opened its doors in 1873, it was one of the most advanced hotels in the world. It was the first building in London to have a 'rising room', our lift, and the first to have revolving doors. It had a Ladies' Smoking Room, which was quite shocking in its day. There were laundry lifts, coal lift, and speaking tubes to send instructions to the staff. The Victorian decoration was rich and expensive, but the hotel was built with old fashioned plumbing. There were 300 bedrooms but only nine bathrooms. People took a bath in a tub in their bedroom. The hotel closed in 1935. Its facilities were outdated, and it was too expensive to run.

It is now known as the St Pancras Chambers. There is a 245-bedroom, five-star luxury hotel, with every comfort and modern amenity, and 68 private apartments and penthouses on the upper floors.

THE PLACE TO MEET

When someone says 'Meet me at St Pancras', everyone knows what they mean. There is a 9-metre tall 20-ton bronze statue called 'The Meeting', which depicts a couple caught in a deep embrace. It's the place to meet, under the great glass roof, where Eurostars glide not a halt, beneath the famous station clock, See you there!

ESTÁNDAR No. 01: SPEAKING: Solicita y proporciona información de forma clara mediante juego de roles y presentaciones orales sobre comparaciones y contrastes de lugares y cosas, hábitos pasados y actuales, tecnología e inventos, y secuencias en procedimientos, apoyándose en textos escritos y orales previamente estudiados y estructuras vistas.

Con base en lo leído en el texto anterior, el estudiante deberá preparar una presentación oral apoyado en diapositivas (mínimo diez diapositivas), las cuales le servirán como apoyo para su evento oral.

ESTÁNDAR No. 02: READING: Comprende textos descriptivos, narrativos y argumentativos sobre lugares y cosas, hábitos pasados y actuales, tecnología e inventos, y secuencias en procedimientos para reconocer, inferir y completar ideas principales y resolver preguntas.

✓ Con base en la lectura inicial presentada en la parte superior, resuelva lo siguiente:

1. Read the article and answer the questions.

- When did the new station open?
- Where can you travel to from St Pancras?
- When was the original station built?
- What was special about the glass roof?
- What would you build new? Explain your answer.

2. Are these statements **TRUE (T)** or **FALSE (F)**. Correct the false statements.

- The escalators lead up to the departure lounge.
- The glass roof has been replaced.
- The iron arches have been painted the same color as the original.
- Farmers bring in fresh produce from all over England.
- The building in front of St Pancras International is a hotel.
- The hotel was advanced for its time because it had so many bathrooms.
- The hotel has now been restored with over 300 bedrooms and apartments.
- The best place to meet at St Pancras is the Champagne Bar.

3. Re-read the article and complete the chart.

WHAT WAS ASKED?	ORIGINAL STATION	NEW STATION
	Cost £436,000	
		Took three years to restore
	Basement used for storage	

		Fifteen platforms
--	--	-------------------

4. Here are some numbers from the article. What do they refer to?
- | | |
|---------------------|-----------|
| a. 50 m | f. ¼ mile |
| b. 300kph | g. 300ft |
| c. 6000 | h. 1873 |
| d. 240ft | i. 1935 |
| e. 21 st | j. 9/20 |

ESTÁNDAR No. 03: WRITING/GRAMMAR: Produce textos descriptivos y narrativos utilizando *ADJECTIVES TO DESCRIBE, COMPARISONS-SUPERLATIVES, USED TO, QUANTIFIERS, WHEN-BY* y vocabulario específico en los contextos propuestos en clase referentes a lugares y cosas, hábitos pasados y actuales, tecnología, inventos, e instrucciones.

El estudiante deberá escribir un párrafo con 250 palabras sobre una receta o un plato muy conocido, explorando sus orígenes, variaciones y preparación. Debe presentarlo en hojas limpias y ordenadas.

ESTÁNDAR No. 04: LISTENING: Escucha y comprende contenidos descriptivos e informativos acerca de daños ecológicos causados por el hombre y la energía para completar y ordenar información e identificar ideas específicas,

El estudiante deberá realizar una actividad de escucha propuesta por la docente y siguiendo sus indicaciones.
